LIBRARIES/Frameworks

Spring Framework, Spring Boot

TOOLS / PLATFORMS

VS Code, Eclipse IDE, Spring Tool Suite, My SQL Workbench

DATABASES

SQL (Oracle 10g)

PROJECTS / OPEN-SOURCE

VEHICLE MANAGEMENT SYSTEM | [LINK](#)

Spring Boot

- This project is a vehicle management system that allows users to login and perform CRUD operations on vehicle details. The login page is developed using HTML and CSS, while the backend is developed using a **database** and programming language was **Java** and **Sql**.
- Once logged in, **users can fetch, add, and delete** vehicle details. The system provides a user-friendly interface for adding new vehicle details, including the vehicle model, year, and other relevant information. Users can also view a list of all vehicle details and delete any details they no longer need.
- Overall, this vehicle management system provides a convenient and efficient way for users to manage their vehicles and keep track of important details.

HOSPITAL MANAGEMENT SYSTEM | [LINK](#)

Hibernate

- Hospital Management System is a web-based application that allows both customers and doctors to perform CRUD (Create, Read, Update, and Delete) operations on patient and doctor details. The system provides a user-friendly interface for fetching, adding, and updating patient and doctor details, improving overall organization and productivity.

DIGITAL CLOCK | [LINK](#)

Html, Css, JavaScript

Introducing my latest project, a sleek digital clock created with the power of HTML5, CSS3, and JavaScript! This clock not only accurately tells time, but also features a modern design that will complement any website or application. This clock is perfect for anyone looking to add a touch of sophistication to their digital space.

SAURAV'S DEVELOPER PORTFOLIO | [LINK](#)

Html5, Css3, Google Fonts API

- Developed a personal portfolio website showcasing projects, skills, and work experience.
- Designed the website layout and UI using HTML, CSS, and the Google Fonts API for a visually appealing user experience.
- Implemented responsive design principles to ensure optimal viewing across various devices and screen sizes.

- Utilized the Typed.js library to create an animated typing effect in the introduction section, enhancing user engagement.
- Included a navigation bar with links to different sections for easy navigation through the website.
- Employed CSS styling for a dark-themed, professional look, enhancing readability with contrasting text colors.
- Ensured browser compatibility and optimized the website for fast loading times.

CERTIFICATIONS

- Completion of Professional Course on Java Full Stack and PL/SQL - JSPIDERS.
